## Glass & Gastronomy

Hergiswiler glass contains a truly unique spark deep within. You think all glass is the same? Note even close: crystal – Hergiswiler crystal in particular – is no ordinary glass. It is a material of great beauty and a refined aesthetic.

At the Glasi-Restaurant, you can enjoy this special spark in combination with hearty regional cooking.

## «Glasi» Hergiswil

The only glassworks in Switzerland

Glass has been made in Hergiswil since 1817. That was when the Siegwart brothers found an ideal new production site at the foot of Mt. Pilatus.

Following serious economic problems, the Siegwart glassworks was threatened to close in 1975. But the «Glasi-Lüüt» (all individuals related to the «Glasi»), the Hergiswil council and above all Roberto Niederer managed to save it. Niederer put new life into the traditional craft and introduced design principles that remain effective to the present day. Shortly before his death in 1988, his son Robert took over as director of the Glasi. In 2020 Robert Niederer handed the Glasi over to the third generation. Leandro Niederer leads the Glasi in the future – together with his team.

We «Glasi-Lüüt» wish you a delightful and relaxing visit to the «Glasi» Hergiswil.

## «Landi» Restaurant & Tavern

The legendary «Landi», founded in 1939! Most of us weren't around to witness this impressive exhibition in person the first time around. But we can still experience the ambience – at the «Adler» restaurant in Hergiswil.

## «Glasi» Hall Seats 180

Our flexible banquet hall can be separated into three smaller spaces: «Möwe», «Buchwalder» and «Flugi». Each of these halls is one part of a very special story.

The «**Möwe**» hall, (seagull) features glass gulls, which were designed by former «Glasi» patron Roberto Niederer for Mövenpick inventor Ueli Prager on the occasion of the opening of the first Mövenpick restaurant in 1953 in Zurich. Seats 52.

*Romantic. Head in the clouds. Profound.*

In the «**Buchwalder**» Hall, glass panes from the 1980s are inscribed with the story of the close artistic friendship between Lucerne painter Ernst Buchwalder (1941–2014) and Roberto Niederer. Seats 48.

*Poetic. Spontaneous. Independent.*

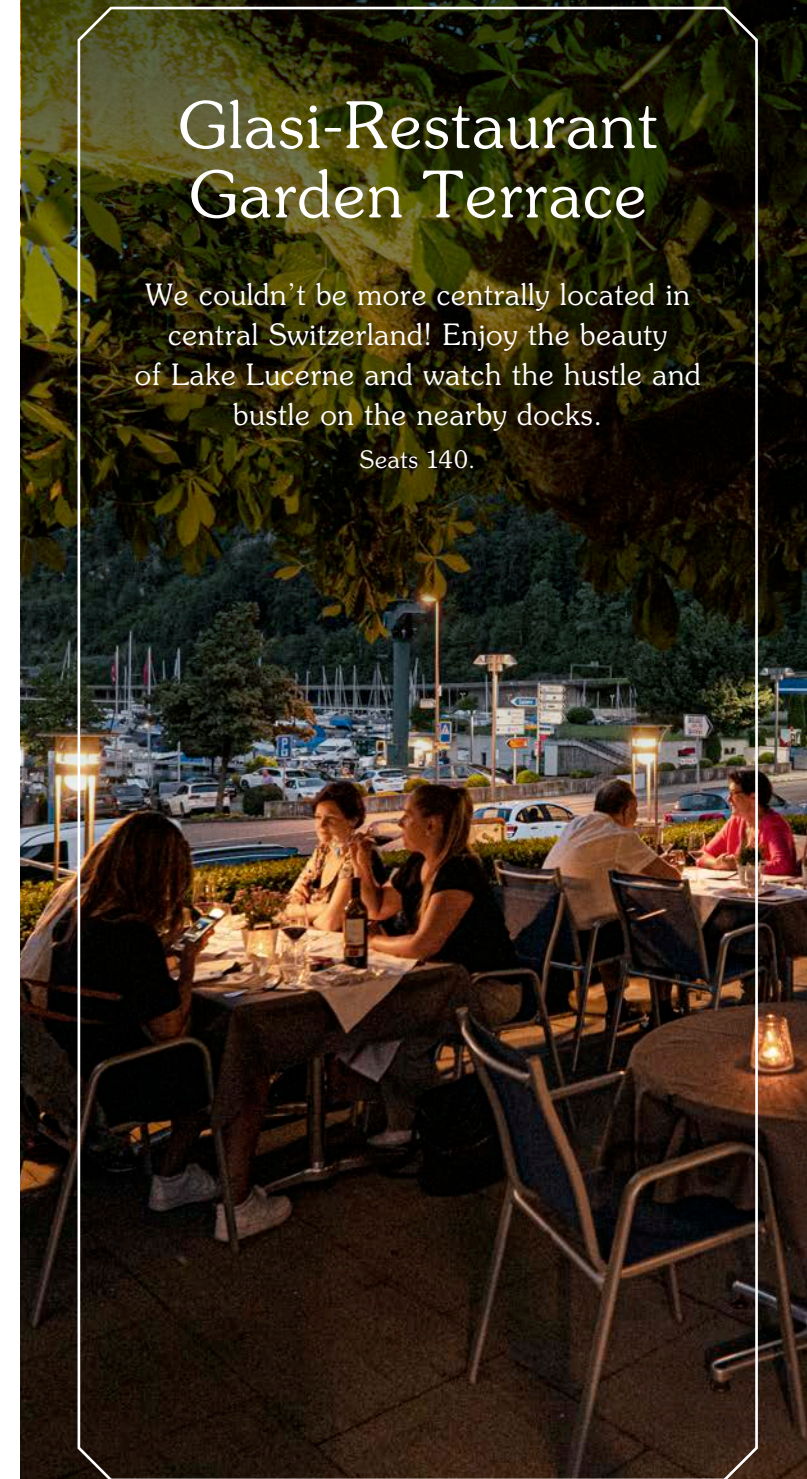

The «**Flugi**» Hall will surprise you with another work of art: locally prominent artist Hans Küchler (1929–2001) from Olten collaborated with Roberto Niederer on the glass «Glasi aeroplanes. Küchler, who was known as «Flügerli-maler» («painter of little aeroplanes»), documented this process extensively in documents. Seats 30, also suitable as a meeting room.

*Dreamlike. Playful. Delicate.*

## Glasi-Restaurant Garden Terrace

We couldn't be more centrally located in central Switzerland! Enjoy the beauty of Lake Lucerne and watch the hustle and bustle on the nearby docks.

Seats 140.

## Welcome to the Glasi-Restaurant «Adler» Hergiswil

This is a place where three legendary attractions show off their very best side: the «Glasi», the «Adler» restaurant itself and the scenic beauty of central Switzerland and Lake Lucerne.

Since 1994, the Glasi-Restaurant «Adler» belongs to the «Glasi». At the the Glasi-Restaurant, we stage surprisingly different interpretations of well-known classics and add a dash of fire to your plate.

Our chefs smoke our fine Orkney salmon themselves, prepare fresh «Hacktätschli» (minced meat burger) and swear by cordon bleu with «Urner» (Mountain-Kanton of Switzerland) cream cheese, herb butter and farmer's ham.

The Rotisserie «Glasi chicken» – crispy on the outside, tender on the inside – is as much a cult favourite as the «Adler» itself. You'll love dishes such as the juicy gourmet Swiss chicken, several of which are prepared fresh daily. Served with an herby butter sauce and chips, it's so good you'll just have to hope it isn't sold out by the time you arrive.
